# How to edit and print

Everything you need to fill in your details and print at home or at a print shop.

## Edit your invitation

1. Download the PDF to a computer and open it in Adobe Acrobat Reader (free). A browser preview may not save your typing.
2. Click any green line of text on pages 3 to 6 and type over the sample words. Every changing line is its own box.
3. Each card on a page is separate, so you can make two different versions on one sheet if you want to.
4. Save the file (File, Save As) before printing. Keep the original as a clean copy for next time.
5. The headline, stripes, bow and leaves are part of the design. Fonts and colours cannot be changed.

## Print and cut

1. Print at 100% or Actual size on US Letter paper, landscape. A4 also works at Actual size.
2. Use white cardstock (80 to 110 lb) for a sturdy card, or ask a local print shop to print it for you.
3. Cut on the light grey corner marks with a paper trimmer for straight edges. Each card is 5 x 7 inches.
4. Standard A7 envelopes (5.25 x 7.25 in) fit both the invitation and the details card.

# *You just made my day!*

Thank you for choosing a small, one-person shop over the big guys.

Quick favor? If this made your party or planning even a little easier, a 30-second review helps the next family find it. I read every single one.

How: Etsy app → You → Purchases → Leave a review

Something not right? Message me first and I'll fix it fast.
